Living well is good for the whole crew

Stefanie Hall, a practice administrator, knows a thing or two about going with the flow. An avid surfer, she and her family spend their weekends catching waves on Belton Lake.

Eating right, staying hydrated and keeping active help her stay fit and focused—at work and on the water. She also taps into resources from Live well to enjoy a balanced lifestyle.

With MyBSWHealth, Stefanie stays on top of her wellness to-dos so she can keep leading her pack. If the kiddos catch colds, she easily makes appointments, schedules video visits and searches symptoms, all from the palm of her hand.

“Life is a lot like wake surfing. It’s about finding your rhythm and enjoying the ride.”

Staying healthy for the whole squad

Sam Watkins, Sarah Starling and Khaled Altassan, MD, work together on the occupational medicine team at Baylor Scott & White Medical Center – Temple and on the triathlon circuit.

“When we got to know each other, it came up that I like to run, Sam liked to bike and Khaled was a swimmer,” Sarah said. “Our clinic manager started to joke that he had a whole triathlon team!”

Each year the team, now racing as “The Three Amigos,” has entered various triathlon relays, winning their first gold medal in 2024.

Their first-place mentality translates to their work and family lives. “We all have one another’s back. Whether it’s consulting on a patient’s results or treatment plan—or covering if one of us has a family event—we know we can come to one another with anything. It makes us better for our patients and better for our families,” said Sarah.

Finding strength in healing

As a nurse and a leukemia survivor, Marcus Kim knows first-hand how important it is to focus on his well-being. After beating cancer over a decade ago, he's stayed on top of his health through routine checkups, healthy eating and workouts—especially weightlifting.

His health insurance through the Baylor Scott & White Health Plan and the MyBSWHealth app make it easier to live well. Along with making appointments, Marcus uses the app to refill his medications, including specialty prescriptions. "If I need a refill, it's only a few clicks away."

Grow your retirement

Financial Health Center

Schedule a personalized consult or access tools & resources!

Set up a retirement account with Empower and let BSW help with a dollar-for-dollar match, up to 5% of eligible base salary. Start, stop or change your contribution anytime throughout the year.

Saving is as easy as 1-2-3

1. You choose a percentage of your salary to save.
2. We subtract that amount each pay period and deposit the funds in your retirement savings account.
3. Because we want your retirement savings to grow, we match your contribution dollar for dollar up to the first 5% of eligible pay. You are always 100% vested in your own contributions; matching contributions vest after three years of employment.

If you participated in another company's retirement account during the year:

- ▶ Consider rolling over your other 401(k) account balance(s). Check with Empower to explore your options.
- ▶ Take your other retirement savings into account when electing your contribution percentage. It's up to you to ensure you don't exceed the IRS limits.

Annual IRS limits

The standard contribution limit for 2025 is \$23,500. A separate catch-up contribution up to \$7,500 is available if you turn age 50 or older during the year. Those ages 60-63 have an increased limit of \$11,250 (new for 2025).

457(b) plan

Executives and physicians may also be eligible to contribute into a 457(b) plan. This plan is not eligible for catch-up contributions or employer match.

As your savings grow, you have options on how you can invest your money. See below for more information.

Target date funds

Set it and forget it with a diversified portfolio based on when you plan to retire (typically age 65). With this option, your investment mix gradually shifts from more aggressive to more conservative as you approach retirement.

Individual funds

Create your own portfolio to match your risk tolerance and investment goals. This option lets you choose your investment lineup from a wide variety of core funds. Be sure to check out the free online investment advice provided by My Total Retirement powered by Morningstar.

Managed account program

Let someone help and manage your individualized portfolio. With this option, you provide My Total Retirement powered by Morningstar with your personal information. They then create and manage it on an ongoing basis for a fee.

Self-directed brokerage accounts

Are you an investment pro? Brokerage accounts are intended for knowledgeable investors. For an annual fee, you can select numerous investment options (beyond those offered under the plan).

Note: Selecting beneficiaries for retirement benefits is different than choosing beneficiaries for other plans, such as life insurance. Be sure to update your beneficiary designations when you enroll in a retirement savings plan* or if you have a life event (marriage, divorce, etc.).

*If you have multiple accounts, each account will need to be reviewed/updated.
